CBRN DECONTAMINATION

BIO BAG

SKY MARSHALL BAG (SKB)

KDTC - CHEMICAL TOXIC AGENT DETECTOR

KIT FOR LIQUID, SOLID, AND GAS

KDTB GOLD - FIELD BIOLOGICAL DETECTION

SANIJET C. 921 - CBRN DECONTAMINATION/
DETOXIFICATION SYSTEM

DECONTAMINATION SHOWERS

WellCrown International
Resources Ltd

Country of origin: France

BIO BAG

Anthrax-Proof Bio Bag

- Microbe resistance
- High-energy radiation resistance
- Oven-gloves
- Easy to use
- Size: 2 ft x 2 ft

*The safest solution to process suspicious mail is
a reusable protection chambers*

Country of origin: France

SKY MARSHALL BAG (SKB)

Containment Bag for Special Liquid Explosives

- The SKB is a new equipment for Sky Marshall, such as a common bag with luggage cabin sizes and being able to contain the effects of a bomb with liquid explosives hidden in bottles or parts authorized during the boarding.
- The SKB has two compartments, which could be separated to isolate several suspected items boarded on the same flight.
- This equipment exists in several configurations.

Containment Bag for Special Liquid Explosives

KDTC

Chemical Toxic Agent Detector Kit for Liquid, Solid, and Gas

- Using colorimetric reactions, the KDTC can:
 - Detect chemical warfare agents that are either airborne or found on contaminated equipment
 - Identify the type of toxic agent identified (blistering/ neurotoxic)
 - Evaluate concentration levels

The KDTC is a portable unit adapted to many day or night detections

KDTB GOLD

Field Biological Detection

- On site results in minutes
- Easy to use
- Rugged
- Portable
- Biodefense against Anthrax, Botulinum Toxin A/B/E, plague, SEB, Tularemia, and Ricin
- The KDTB has a sensitivity of 15 min

A sample is placed on the strip of the searched agent and within less than 15 min, the colorimetric reaction allows visualization for a positive or negative reaction

Country of origin: Italy

SANIJET C. 921

CBRN decontamination/detoxification system

- Can be used in Decon/Detox operations for powder, liquid and two liquids simultaneously in different %.
- It is also a generator and work in altitude environment
- Diesel engine: 10 hp air-cooled
- Water suction pump: from 5 m of altitude
- Thermal group: Kcal/h 78.000 (309.500 Btu)
- Fuel: diesel or kerosene or JP8
- Alternator: (Integrated) 2000 W, 230 V AC
- Ignition battery: 12 V charged by the diesel motor

DECONTAMINATION SHOWERS

Inflatable Decontamination Unit

- Light Weight and compact
- Rapid Inflation and deployment
- Low Maintenance
- Easily Detachable Lining
- Integral multi-nozzle shower systems for wash and rinse
- Wash brush hose connection fittings
- Large roll-up doors at each end with zip closure

Lightweight and quick to deploy, the inflatable Decontamination Unit range allow for rapid response
